

REPAIRING CHILDREN'S BOOKS

OUR WORKSHOP (Deadline for registering is August 1, 2021)

This workshop will orient students to the world of book repair. We will work with torn pages, ripped covers, and broken spines to rebuild damaged children's books. Instead of making new covers to paper over the damage, we'll respect the integrity of the original material to strengthen it for a new life of readability. In the process, we'll get to work with the colorful images and text of historic children's books. Think your damaged books are beyond repair? Think again, and learn how to make them readable with us.

Please note: this workshop is geared toward intermediate level bookbinders. Please have some basic experience sewing and gluing books before attending this workshop. *Please also note that you will receive a special lifting knife as part of the materials fee for this class, and that the fee has been adjusted to reflect that cost.*
